

PE Flate Hose Fittings

Products introduction

The flat hose fittings are made of PP materials, which are non-toxic and tasteless, and conform to the GB4688 national hygiene standard.

Features

1. Injection molding process, one-time molding, reasonable structure
2. High quality PP material, durable
3. No hot melt, easy to use
4. High temperature resistance, not afraid of freezing

Product application

It is suitable for the connection of PE flat hose of various sizes.
